Dear Jhanker,

As a Diploma in Computer Engineering Student and all-around tech-head, I was elated to see your new opening for the junior web developer position. I know I have the JavaScript, React.js, HTML, CSS, MongoDB, Express.js and Node.js skills to help Programming Hero succeed.

My recently-finished **Complete Web Development Course with Jhankar Mahbub** by [Programming Hero](#) experience has shaped my code evaluation and website development knowledge.

Some of my achievements while taking the course at Programming Hero are:

- A total of 12 projects I have done myself for the assignment.
- I got a chance at **Super Charged Interviewee Club (SCIC)** to complete the course and assignment on time and get 100% marks on the assignment.
- I have also done various projects.

I would enjoy an opportunity to chat about your upcoming projects and plans and share with you how my achievements can be replicated and improved at Programming Hero.

Sincerely,

Arif Mia
